Terms

- (A) It is enet’s ambition to keep connection fees for MAN products at a minimum possible level, that means that for Dark Fibre service to keep it to the cost of works and for Managed service to be free where possible. Quotes will be issued subject to survey – where surveys return a higher cost than anticipated enet reserves the right to seek a connection contribution from the carrier over and above the quoted amount. The customer also maintains the right not proceed with the order at that point. Connection charges can take the form of a once of connection fee or an increased annual rental charge over the period of the contract to cover the connection cost. The options around which can be agreed with the carrier’s own enet account manager.
- (B) Discounts are available based on term and volume
- (C) Term discounts as per table are available

Contract Term (Months)	Discount (%)
36	5%
48	7.5%
60	10%
120	12.5%

- (D) Normal Working Hours are defined as 09:00 to 17:00, Monday to Friday
- (E) Cards, Keys and carriage will be charged cost of works on top of training course
- (F) Including travel time
- (G) Incremental charge for additional premises (in excess of 250) will apply and can be obtained on request.
- (H) Rack space does not include power and a measurement is taken when equipment first goes into the rack and thereafter periodically and charged accordingly covering lighting and aircon.
